

# 大连枫叶国际学校 Dalian Maple Leaf International School

To whom it may concern,

I am writing this letter in reference to Steve Magnus Colvin, whom I have worked with as a colleague at Maple Leaf International School Dalian. MLIS-D is an international school in Northern China serving a predominantly Chinese student body. Our school have been accredited by the British Columbian ministry of Education to June 2022 and are currently accredited by Cognia with UK-ENIC benchmarking our curriculum. Steve has taught senior level English, encompassing literary studies and language and comprehension courses.

I have worked with Steve for 1 year, and I have never been more impressed by a teacher's enthusiasm and passion for the craft of teaching. He frequently put in long hours to develop lesson plans and monitor student progress. Steve is always on point when it comes to helping all students, and always there to have tutorials for those students who needs his support. Steve has daily tutorial sign-ups for his students, at lunch, and after-school which are more than the once-a-week mandate from the school. As a high school English teacher, Steve has consistently demonstrated a strong passion for teaching and a dedication to fostering a positive learning environment for students.

Steve has displayed the qualities that makes a teacher successful. He is dependable, motivated, and is in concordance with the needs of his students. He works well with colleagues and administration and is able to learn from those around him. He is always helpful and great to have as a team member.

Overall, Steve is a highly skilled and dedicated educator who would be a valuable asset to any educational institution. I have no doubt that he will continue to excel in his teaching career and positively impact the lives of his students.

Sincerely,

  
  
Niconet van Vuuren
